

Mooneward Innovations Mono Tile Calibrator WARRANTY

(1) Subject as provided below, Mooneward Innovations warrants all new Products supplied by it to be free from defects in material and workmanship, but its sole liability under such warranty is to replace, free of charge, any part which, within the period specified below, is returned to Mooneward Innovations or its authorized representative and which Mooneward Innovations accepts as having been defective in material or workmanship. As an alternative to the replacement of the defective part, the Mooneward Innovations may elect to grant a monetary credit to the buyer equal to the then current net delivered price to the customer of such part. The period mentioned above is to be calculated from the date when the Product was delivered new to the customer and shall be:

(a) in respect of any Product (other than a spare or replacement part), a period of three calendar months from the date of purchase.

Provided that:

(i) this warranty does not apply to any Product that in Mooneward Innovations's opinion has been used for a purpose outside its intended function;

(ii) this warranty does not cover transportation, installation, labour or other costs;

(iii) all replaced parts become the property of Mooneward Innovations;

(iv) this warranty does not apply to any Product from which Mooneward Innovations's trademarks or other identifying features have been removed or which Mooneward Innovations considers in its discretion has been repaired, altered, neglected or used in any such way as to affect the Product adversely (reasonable wear and tear excepted) and without limiting the generality of the foregoing this warranty does not apply to any spare or replacement part used in any Product for which it was not designed

(2) This warranty is given expressly in place of and excludes all other warranties and conditions expressed or implied, whether under common law, statute or otherwise, and there is expressly excluded every form of liability for loss or damage, direct or consequential, resulting from defective material, faulty workmanship or otherwise.
